## PCR BASED DNA FINGERPRINTING DATA ANALYSIS An Introduction

**30<sup>th</sup> November 2015**

**8.00 a.m. - 5.00 p.m.**

**@ PGIA**

### Scope and Topics

1. Score Agarose and Acrylamide gels
2. Development of Datasheets
3. Analysis of RAPD & SSR Data
4. Visualize Results for Publications
5. Interpret Results

### Resource Persons

- Dr. Mangalika Wickramasinghe
- Dr. Venura Herath
- Dr. Dimanthi Jayathilake

### Course Fee

**Rs. 4000 /=**

### Target Group

- Researchers
- Medical Professionals
- Industry Professionals
- Research Students

**Learn how to analyze  
DNA fingerprinting data  
and interpret results.**
