

Postgraduate Institute of Agriculture

PCR BASED DNA FINGERPRINTING DATA ANALYSIS An Introduction

27th November 2015

8.00 a.m. - 5.00 p.m.

@ PGIA

Scope and Topics

1. Score Agarose and Acrylamide gels
2. Development of Datasheets
3. Analysis of RAPD & SSR Data
4. Visualize Results for Publications
5. Interpret Results

Resource Persons

- Dr. Mangalika Wickramasinghe
- Dr. Venura Herath
- Dr. Dimanthi Jayathilake

Course Fee

Rs. 4000 /=

Target Group

- Researchers
- Medical Professionals
- Industry Professionals
- Research Students

**Learn how to analyze
DNA fingerprinting data
and interpret results.**
